*Attention All Shipping*
Charlie Connelly 2011-06-02
This solemn, rhythmic intonation of the shipping forecast on BBC radio is as familiar as the sound of Big Ben chiming the hour. Since its first broadcast in the 1920s it has inspired poems, songs and novels in addition to its intended objective of warning generations of seafarers of impending storms and gales. Sitting at home listening to the shipping forecast can be a cosily reassuring experience. There’s no danger of a westerly gale eight, veering southwesterly increasing nine later (visibility poor) gusting through your average suburban living room, blowing the Sunday papers all over the place and startling the cat. Yet familiar though the sea areas are by name, few people give much thought to where they are or what they contain. In ATTENTION ALL SHIPPING Charlie Connelly wittily explores the places behind the voice, those mysterious regions whose names seem often to bear no relation to conventional geography. Armchair travel will never be the same again.

*The Attack of the Alien Brain*
Steve Hartley 2013-01-03
Hi! I'm Oliver Tibbs (some people call me 'Oliver Fibbs') and everyone in my family is super-brilliant at something - chess, ballet, brain surgery and architecture - but I'm not brilliant at anything. Show and Tell (or as I call it: Pain and Torture Time) is my worst nightmare . . . I haven't got a black belt at karate or made a mega-powerful electro-magnet. All I'm good at is reading comics and eating pizza. But I'm fed up with being Dull and Boring, so I've been telling the class about my adventures as a Defender of Planet Earth - battling against the evil Alien Brain Drain who wants to take over the world! Everyone loved it except Miss Wilkins, who gave me a detention for telling fibs. Now my parents think I'm Going Bad. I keep telling them - THEY'RE NOT FIBS, THEY'RE STORIES!

*Attaining Your Desires*
Genevieve Behrend 2017-01-30
If You Could Talk To The Greatest Master of This Century - What Would You Ask? The sages of the centuries, each one tincturing their thought with their own soul essence, have united in telling us that, ""As a man thinketh in his heart, so is he."" It has been established by the experience of the ages that always the law is the same. But HOW shall one think in their heart, so that only goodness may blossom and ripen into rich deed and rare result? What is the apparently mysterious secret by which life's dull metal is transmuted into precious mintage? As Troward has said, ""Thought is the only action of the mind. By your habitual thoughts you create corresponding external physical conditions, because you thereby create the nucleus which attracts to itself its own correspondence, in due order, until the finished work is manifested on the material plane."" Let us work together to this end. G.B (from the Foreward) Get Your Copy Now!

*Attitudes of Gratitude*
M. J. Ryan 2017-10-01
Discover the life-changing power of practicing gratitude in your daily life with this new edition of the inspirational classic. Foreword by Mark Nepo, bestselling author of The Book of Awakening. Gratitude is a simple, profound practice that can transform your life. Research has confirmed its many emotional and physical benefits. Taking the time to notice and reflect upon good things opens our hearts, increases happiness, and puts us in a positive mindset where we are prone to notice what’s right instead of what’s wrong. In a series of brief, evocative essays, personal success mentor M. J. Ryan teaches you how to unlock the fullness of life through the simple joy of living from a grateful heart. As she writes, “Gratitude births only positive feelings: love, compassion, joy, and hope. As we focus on what we are thankful for, fear, anger, and bitterness simply melt away, seemingly without effort.” Attitudes of Gratitude will teach you how to reach this positive place.

**Atrial Fibrillation Therapy**
George-Andrei Dan 2013-11-25
The paradigm for atrial fibrillation (AF) management has changed significantly in recent years. A new era has begun for the prevention of one of the most tremendous complication of AF, stroke. Prevention of ischemic stroke in AF patients with oral anticoagulants represents a huge challenge because of the narrow therapeutic change of these drugs, interindividual and intraindividual variability, and the unsatisfactory time in therapeutically range (TTR) with this type of medication. New guidelines have emerged as a result of new mechanisms for initiation and perpetuation for pharmacotherapy to cure AF and trials with new classes of antithrombotic drugs are ongoing. The treatment of AF is still in its infancy, but recent research is revealing how it can be applied with optimal efficacy. This book assists trainees, recertifying physicians, practicing physicians and other professional staff in internal medicine, cardiology, emergency medicine, and clinical pharmacology to apply new diagnostic tools for selecting the best treatment options for AF patients.

*Attack of the Copula Spiders*
Douglas Glover 2012-03-27
A GLOBE & MAIL BEST BOOK OF THE YEAR FOR 2012 “Glover is a master of narrative structure.” —Wall Street Journal In the tradition of E.M. Forster, John Gardner, and James Wood, Douglas Glover has produced a book on writing at once erudite, anecdotal, instructive, and amusing. Attack of the Copula Spiders represents the accumulated wisdom of a remarkable literary career: novelist, short story writer, essayist, teacher and mentor. Glover has for decades been asking the vital questions. How does the way we read influence the way we write? What do craft books fail to teach aspiring writers about theme, about plot and subplot, about constructing point of view? How can we maintain drama on the level of the sentence—and explain drama in the sentences of others? What is the relationship of form and art? How do you make words live? Whether his subject is Alice Munro, Cervantes, or the creative writing classroom, Glover’s take is frank and fresh, demonstrating again and again that graceful writers must first be strong readers. This collection is a call-to-arms for all lovers of English, and Attack of the Copula Spiders our best defense against the assaults of a post-literate age. Douglas Glover is the award-winning author of five story collections, four novels, and two works of non-fiction. He is currently on the faculty of the Vermont College of Fine Arts MFA in Writing program. Praise for Douglas Glover "So sharp, so evocative, that the reader sees well beyond the tissue of words into ... the author's poetic grace." - The New Yorker "Glover invents his own assembly of critical approaches and theories that is eclectic, personal, scholarly, and smart ... a direction for future literary criticism to take." - The Denver Quarterly "A ribald, raunchy wit with a talent for searing self-investigation." - The Globe and Mail "Knotty, intelligent, often raucously funny." - Maclean's "Passionately intricate." - The Chicago Tribune "Darkly humorous, simultaneously restless and relentless." - Kirkus Reviews

*Atrocitas Aqua*
David Bowlin 2003-02-01
Herman Melville said it best when he proclaimed that every path eventually leads to the sea. For it is the sea that holds our most sacred and terrifying fears, yet it also holds a glorious mysticism over us as a race, an attraction so strong that most of us flock to beaches, river banks, creeks, and lakes at every opportunity to stare out into the vast bluness and wonder: what’s out there?Take my hand, Dear Reader, and swim with me through this journey of sixteen tales of watery terror. As we swim, if something reaches out of the darkness and gropes for your ankle, if something pulls you deeper into the depths of liquid madness, if your breath is stolen from you and you find yourself inhaling nothing but muddied water... do not fear, for it is just the ocean reclaiming what is already hers: your soul.

The wide scope of this study, which ranges from poetry and cinema to street violence and prostitution, provides a richly detailed context for its account of two writers engaged in the process of self-definition.
