Eisenhower and Golf David Sowell 2007 President Dwight D. Eisenhower played nearly 900 rounds of golf during his two terms in office, and his obsession with the game aided an explosion in golf's popularity during the 1950s. This book details Ike's love of golf and demonstrates how the sport was interwoven with the major events of his presidency, from the Army-McCarthy Hearings to the U-2 crisis. Also covered are the ways golf affected Eisenhower's family, staff, friends, allies and opponents; the impact Eisenhower's Augusta National friends had on his decision to seek the presidency; and the president's relationship with Bobby Jones and Arnold Palmer. An appendix reprints selected golf-related correspondence from Eisenhower's archives.

Eccentric California Jan Friedman 2005 Jan Friedman's Eccentric America proved that the most unlikely events and landmarks could become tourist attractions. This new title is dedicated to the sheer lunacy of California and its citizens, covering the biggest, the best, the wackiest and weirdest of the state's people and places. From art-car and golf-cart parades to the Valentine's Day Sex Tour at the San Francisco Zoo; from a festival that moons Amtrak to a town with its own language; from obsessed collectors of Pez, yo-yos, and bananas to kitschy theme motels and a man who built a three-story mountain out of hay, adobe, and old paint. Eccentric California takes an in-depth look at one very peculiar place. This guide features:

Quest for Economic Empire Volker R. Berghahn 1996 German unification evoked ambivalent reactions outside its borders: it revived disquieting memories of attempts by German big business during the two world wars to build an economic empire in Europe in conjunction with the military and the government bureaucracy. But there are also high hopes that German finance and industry will serve as the engine of reconstruction in eastern Europe, just as it played this role in the postwar unification of western Europe.
