[The Future of Consumer Credit Regulation](#) Michelle Kelly-Louw 2016-12-05 Effective regulation of consumer credit in modern society is an ever-changing challenge. As new forms of credit emerge in free societies, regulation often lags behind. This volume explores contemporary problems related to the regulation of consumer credit in market economies with a focus on credit extended to the most vulnerable and poorest members of the community. Written by experts in the field of consumer credit regulation from Europe, North America, Australia and South Africa, the book examines some of the most important consumer credit issues facing consumers today and proposes innovative ways to protect the consumer interest in those markets.

An Introduction to the Law on Financial Investment Iain G MacNeil 2012-01-20 Since the publication of the first edition of this book in 2005, the world of financial investment has experienced an unprecedented boom followed by a spectacular bust. Significant changes have been proposed and in some cases implemented in areas such as the structure of regulation, the organisation of markets, supervision of market participants and the protection of consumers. The second edition takes account of these developments, integrating them into an analytical framework that enables the reader to develop a critical overview of the role of general legal rules and specialised systems of regulation in financial investment. The framework focuses on the role of contract, trusts and regulation as the primary legal influences for financial investment. The first part explores the relationship between investment, law and regulation. The second part examines the nature of investments and investors, both professional and private. The third part discusses the central role of corporate finance and corporate governance in linking investors with enterprises that require external capital. The fourth part examines the nature, operation and regulation of markets and the participants that support the functioning of the markets. The objective remains to provide a broadly-based and critical account of the role of law in financial investment. "MacNeil's eloquent and informative distillation of the regulatory fundamentals of investment law gives his book much international relevance...a timely contribution to help readers decipher the seemingly inextricable maze of financial regulation...Practitioners and legal policy advisers will...welcome it. They should find enlightening the book's careful scrutiny of the trust and contractual foundations of investment law and practice." Benjamin J Richardson Journal of International Banking Law and Regulation, Vol 22 Issue 1, 2007 ...a fascinating and informative book...thoroughly recommended as a learned but at the same time very readable introduction to the law of financial investment Gerard McCormack Banking and Finance Law Review, Volume 21 No 2, June 2006 ...very informative tool that introduces in a very friendly and accessible manner the nearly inextricable world of financial investment laws. [Consumer Insurance Law](#) Great Britain. Law Commission 2009 This joint report recommends clarification of the law about the information which a consumer should tell an insurer when taking out a policy. It includes draft legislation to replace the current law which is more than 100 years old and was designed for ship owners insuring large vessels rather than today's consumer insurance market. Under that statute, insurers can refuse to pay out if a policyholder failed to disclose any relevant information, even if the consumer answered all questions that were asked honestly and reasonably. The draft Bill appended to the report will clarify a raft of existing rules and guidance employed by insurers, the Financial Services Authority and the Financial Ombudsman Service. Under the recommendations: insurers must ask questions about any matter which they wish to know in order to assess the risk being insured; consumers who take reasonable care to answer insurers' questions fully and accurately can expect to have any subsequent claims paid in full; if a consumer makes a careless mistake when answering a question, he or she might still be entitled to have some of the claim paid. The Commissions' recommendations follow a detailed consultation exercise - started with a discussion paper "Insurance contract law" (2007, LCCP 182/SLCDP 134, ISBN 9780117037823) - which found widespread support for the proposed changes from major insurers, insurance brokers and lawyers as well as consumer groups.

Insurance Law and the Financial Ombudsman Service Judith Summer 2013-05-02 Insurance Law and the Financial Ombudsman Service is an in depth look at the workings and insurance decisions of the Financial Ombudsman Service. The book analyses how the Ombudsman Service decides insurance cases and compares its approach to that of a court. This book sets out the rules, procedure and approach of the Ombudsman Service, succinctly summarises the relevant insurance law and compares and analyses it against a comprehensive review of material about insurance complaints gathered since the formation of the Ombudsman Service in 2001.

Consumer Financial Dispute Resolution in a Comparative Context Shahla F. Ali 2013-03-14 Shahla Ali presents comparative empirical research about the design of consumer financial dispute resolution mechanisms in Asia, America and Europe.

Banks, Consumers and Regulation Peter Cartwright 2004-10-01 Recent developments in law, public policy, and regulation have ensured that questions regarding the relationship between banks and their customers have seldom been out of the spotlight. This important book provides a timely, original, and critical examination of the role of the law in regulating banks in the interests of the consumer. The work examines the social and economic rationales for, and the objectives of banking regulation. In so doing, it focuses on the crucial role of regulation in the protection of the consumer. The book then provides a critical appraisal of the principal techniques by which regulation is delivered and protection ensured. Such techniques include prior approval by licensing, continued supervision, and information remedies such as disclosure. The work also looks at how the law protects depositors of insolvent banks through financial compensation schemes, and how it provides consumer redress through mechanisms for ensuring access to justice, in particular ombudsmen. Finally, the book looks at the topical question of consumer access to banking services, and considers the extent to which the law can justify placing social obligations on banks in the consumer interest. This is the first monograph to examine these important topics in this way.

Research Handbook on International Insurance Law and Regulation Julian Burling 2012 'Global insurance and its rapidly evolving law and regulation demands international research. To this aim, the Handbook offers a truly international collection of essays. Highly renowned experts analyze the key topics currently under international discussion and development. While representing a diversity of national jurisdictions, the focus lies on the largest insurance jurisdictions (USA, UK and Germany) but newly important jurisdictions like Brazil and China are considered as well as most valuable and important contribution to international insurance law literature.' Manfred Wandt, Director of the Insurance Law Institute, Goethe-University Frankfurt, Germany 'This Research Handbook is published at an opportune time. A global review of insurance law and regulation is underway. Much reform happens locally with little reference to developments elsewhere and this Research Handbook brings the strands together. It is a comprehensive review by distinguished authors from different backgrounds including both leading academics and practitioners. They consider the definitions of insurance, its economic underpinnings, comparative law and regulations, actual and proposed reforms, the effects on underwriting and claims and how insurance is studied and taught. Good laws and regulation benefit the market and its customers. Bad laws and regulation do the opposite. This book is required reading for all involved in the reform process.' David Hertzell, Law Commissioner 'Globalisation has had no greater impact in the commercial world than on insurance, the law which governs it and the risks it seeks to address. Those who inspired this publication and the contributing authors, are to be thanked for providing such a necessary and useful reference source. It covers so much of what insurance professionals need to be aware of in the insurance/law world of the twenty first century.' Michael Gill, President of the International Insurance Law Association Given its economic importance, insurance is a field that has been underserved as an area of academic study. This detailed book provides much needed coverage of insurance law and regulation in its international context. Produced in association with Lloyd's, it draws on the expertise both of academics and practising lawyers. Containing 30 comprehensive chapters, it provides in-depth studies on key areas, such as the role of

international organisations, the judicial interpretation of insurance contract clauses and transnational regulatory recognition. It also provides thorough introductions to important jurisdictions, including the EU, US and Japan as well as focusing on newly emerging economies such as China and Brazil. Specialist topics covered include regulation by and of Lloyd's, the tort of bad faith in the US, microinsurance and takaful insurance. This well-documented resource will appeal to academics and students in insurance law and regulation, policymakers and private practice lawyers. The book also aims to stretch the imagination of anyone with an interest in insurance law and regulation, providing detailed analysis and avenues for further investigation.

[English and European Perspectives on Contract and Commercial Law](#) Louise Gullifer 2014-10-23 The purpose of this book is to honour the influential and wide-ranging work of Professor Hugh Beale. It contains essays by twenty-five very distinguished authors, each of whom has worked with Professor Beale as a co-author, as a teaching colleague, during his time as Law Commissioner of England and Wales, or as part of the study groups working in Europe on contract and commercial law. The essays reflect different aspects of Professor Beale's interests. Some concentrate on English contract law, either from a historical or a current perspective, while others are focused on aspects of European contract law. There are four essays looking at current issues relating to security and financing, and, as befits a former Law Commissioner, three essays on law reform. The essays in the final section discuss trends in transnational and European commercial law. This book brings together the reflections of eminent writers from all over Europe on important issues facing contract and commercial law and will be of interest to all scholars and practitioners working in these areas.

Zivilrechtliche Strukturen von open-end-Investmentfonds in Deutschland und England Ole W. Sachtleber 2011 English summary: Collective investment schemes provide investors with a safe and readily redeemable form of investment. Their economic significance cannot be overestimated. In particular, the tripartite structure between the managing company, the depositary and the unitholders gives rise to several legal problems. This thesis is the first to analyse the legal structures of collective investment schemes in Germany and England. The author examines the contractual model and the so-called Investmentaktiengesellschaft under German law as well as the unit trust and the open-ended investment company (OEIC) under English law. The core issues are the legal relationships between the parties and such funds and their duties. A focus is also put on the legal consequences in case these duties are breached and how such damage claims are to be enforced. With regard to the German contractual model, the author advocates payments for compensation in favor of the fund assets rather than in favor of the individual unitholder. He further makes suggestions on how to strengthen the rights of the investors. German text. German description: Open-end-Investmentfonds bieten Anlegern die Möglichkeit einer sicheren sowie leicht realisierbaren Kapitalanlage und haben eine immense wirtschaftliche Bedeutung. Rechtlich problematisch ist insbesondere die Dreiecksstruktur zwischen Verwaltungs- bzw. Investmentgesellschaft, Verwahrge-sellschaft und Anlegern. Die vorliegende Arbeit untersucht diese Strukturen erstmalig nicht nur für open-end-Investmentfonds in Deutschland, sondern auch in England. Dabei werden das Vertragsmodell und die Investmentaktiengesellschaft des deutschen Rechts sowie das Trustmodell (unit trust) und die open-ended investment company (OEIC) des englischen Rechts eingehend behandelt. Im Mittelpunkt der Arbeit stehen die Rechtsbeziehungen zwischen den Beteiligten, die sich daraus ergebenden Pflichten und die Rechtsfolgen ihrer Verletzung. Untersucht werden auch die Möglichkeiten der Durchsetzung von Schadensersatz-ansprüchen. Dabei richten sich nach Ansicht des Autors Haftungsansprüche der Anleger im deutschen Vertragsmodell grds. auf Leistung an das Sondervermögen. Er entwickelt auch Vorschläge zur Stärkung der Rechtsposition der Anleger.

Tolley's Finance Director's Handbook Glynis D. Morris 2003 Financial reporting is becoming more onerous and complex, particularly for listed companies. Accounting scandals have led to a greater regulatory focus on the role of audit committees and non-executive directors, and risk management and internal control put the finance director under new and more stringent pressures. Tolley's Finance Director's Handbook is a comprehensive guide to the huge range of duties that the modern finance director now undertakes. Tolley's Finance Director's Handbook 3rd edition provides extensive coverage of financial operations. Detailed sections are devoted to audit, cashflow management, corporate transactions, financial reporting, management accounting, taxation and risk management.

The Law of Finance Alastair Hudson 2009 The Law of Finance aims, for the first time in a single volume, to account for the whole of international finance as understood in English law. The volume is divided into two halves with section one considering the principles of the law of finance and section two considering the full range of modern financial techniques in their legal context.

The Foundations and Future of Financial Regulation Mads Andenas 2013-11-20 Financial regulation has entered into a new era, as many foundational economic theories and policies supporting the existing infrastructure have been and are being questioned following the financial crisis. Goodhart et al's seminal monograph "Financial Regulation: Why, How and Where Now?" (Routledge:1998) took stock of the extent of financial innovation and the maturity of the financial services industry at that time, and mapped out a new regulatory roadmap. This book offers a timely exploration of the "Why, How and Where Now" of financial regulation in the aftermath of the crisis in order to map out the future trajectory of financial regulation in an age where financial stability is being emphasised as a key regulatory objective. The book is split into four sections: the objectives and regulatory landscape of financial regulation; the regulatory regime for investor protection; the regulatory regime for financial institutional safety and soundness; and macro-prudential regulation. The discussion ranges from theoretical and policy perspectives to comprehensive and critical consideration of financial regulation in the specifics. The focus of the

book is on the substantive regulation of the UK and the EU, as critical examination is made of the unravelling and the future of financial regulation with comparative insights offered where relevant especially from the US. Running throughout the book is consideration of the relationship between financial regulation, financial stability and the responsibility of various actors in governance. This book offers an important contribution to continuing reflections on the role of financial regulation, market discipline and corporate responsibility in the financial sector, and upon the roles of regulatory authorities, markets and firms in ensuring the financial health and security of all in the future.

Banking Regulation of UK and US Financial Markets Dalvinder Singh 2016-04-15 Dalvinder Singh provides an interdisciplinary analysis of the legal aspects of prudential supervision. This gives the reader a broader understanding of the core processes of banking supervision. By using the UK as a case study, a comparison is made with the US to illustrate the different ways of approaching the issues. The author examines the legal as well as the theoretical, economic, political and policy issues that underpin the purpose of prudential supervision, such as corporate governance, enforcement sanctions, the role of external auditors and accountability of financial regulators. These are considered in the context of broad-policy considerations which render prudential supervision necessary, namely financial stability and depositor protection. The book will be of interest to academics, policymakers, regulators and practitioners, and equally will serve specialist undergraduate and postgraduate programmes in law, management and economics which focus on financial regulation.

Mercury Pollution in Minamata Hisashi Yokoyama 2018-01-19 This book is open access under a CC BY 4.0 license. It overviews the poisoning which occurred in the 1950s and 1960s among the residents in Minamata who ate seafood contaminated with methylmercury discharged from the chemical factory, Chisso Corporation. It describes the history, symptoms pathogenesis and research on the causal agent, and discusses the responses of Chisso and the national and local governments to the outbreak, the victims, the compensation and environmental restructuring as well as the court ruling on claims. Based on lecture notes from a university course, it includes students' suggestions for avoiding a repeat of the tragedy. The issue has not been settled yet, and this analysis of the incident provides useful insights into solutions to the current global mercury pollution problem.

Consumer Sales Law John Macleod 2009-06-02 Fully updated and revised, this comprehensive and informative textbook provides readers with an overview of current consumer sales law and equips them with a view of how this fast-changing subject has, and will continue to develop through the inclusion of new reform proposals. This book analyzes the interaction of consumer sales law with politics, the appeal of consumer protection to politicians and the influence of the European Union and the EU Directives. It also discusses the removal of consumer sales law from its traditional realm of legal professionals to consumer and debt advisors and public officials with the power to seek injunctions to protect consumers. In addition to this, it: fully integrates both the Unfair Commercial Practices Directive 2005 and the Consumer Credit Act 2006 into the basic 1974 Act explains how the sale of Goods Act 1979 has been modified by the 1999 Directive combines the public protection of consumers under the Enterprise Act 2002 (e.g. Office of Fair Trading) is supplemented by comprehensive e-updates on its Companion Website, keeping the content current between editions. Written by an author with forty years experience of teaching sales and finance law to undergraduates, this textbook is an essential tool for all undergraduates studying commercial and consumer sales law.

Handbook of Research on International Consumer Law Geraint G. Howells 2010 This is a truly international effort, and one with a strong commitment to human rights by the highly reputable authors coming from different jurisdictions! The many facets of today's consumer law are presented to the reader, including developing countries a fascinating effort in a dynamically emerging field of law! We are comprehensively informed about such bread and butter areas as advertising, unfair terms, consumer guarantees, product safety and liability, consumer credit, and redress. But traditional consumer law concepts and remedies are facing challenges in more complex areas, like services of general internet where consumers and private users should enjoy equal access to universal services, with the internet where speed must not be a pretext to eliminate standards of fair dealing, with risky investment services under the problematic paradigm shift from investor protection to investor confidence. A book to read, to think about, to work with for everybody interested in the future of consumer markets and law in a time of economic crisis! Norbert Reich, University of Bremen, Germany This is a richly interesting collection of essays, written by leading names in the field. It offers a thoroughly reliable survey of key tensions and challenges in modern consumer law and brilliantly combines thematic overview with detailed analysis. It will stimulate comparative thinking, it will provide a source of information and it will be welcomed by consumer law scholars all over the world. Stephen Weatherill, University of Oxford, UK Consumer law and policy has emerged in the last half-century as a major policy concern for all nations. This Handbook of original contributions provides an international and comparative analysis of central issues in consumer law and policy in developed and developing economies. The Handbook encompasses questions of both social policy and effective business regulation. Many of the issues are common to all countries and are becoming increasingly globalised due to the growth in international trade and technological developments such as the Internet. The authors provide a broad coverage of both substantive topics and institutional questions concerning optimal approaches to enforcement and the role of class actions in consumer policy. It also includes comparative insights into the influential EU and US models of consumer law and relates consumer law to contemporary trends in human rights law. Written by a carefully selected group of international experts, this text represents an authoritative resource for understanding contemporary and future developments in consumer law. This Handbook will provide students, researchers and policymakers with an insight to the main policy debates in each context and provide models of legal regulation to assist in the evaluation of laws and the development of consumer law and policy.

Unconscionability in European Private Financial Transactions Mel Kenny 2010-06-24 Given the unprecedented recent turmoil on financial markets we now face radically challenged, 'post-Lehmann' assumptions on protecting the vulnerable in financial transactions. This collection of essays explores conceptions of, and responses to, unconscionability and similar notions across Europe with specific reference to financial transactions. It presents a detailed analysis of concepts of unconscionability in Europe against a backdrop of Commission initiatives aimed, variously, at securing a single market in financial services, producing greater coherence in EC consumer protection law and consolidating European private law. This analysis illustrates, for example, that concepts of unconscionability depend on context and can be shaped by a variety of factors. It also illustrates that jurisdictions may choose to respond to questions of unconscionability through a variety of legal instruments located in different branches of the law rather than through a single doctrine. Thus this collection illuminates many of the obstacles facing harmonisation in this area.

Insurance Theory and Practice Rob Thoys 2010-06-21 This book provides a comprehensive overview of the theory, functioning, management and legal background of the insurance industry. Written in accessible, non-technical style, Insurance Theory and Practice begins with an examination of the insurance concept, its guiding principles and legal rules before moving on to an analysis of the market, its players and their roles and relationships. The model is the UK insurance market which is globally recognized and forms the basis of the insurance system in a range of countries in the Middle East, Africa and the Caribbean as well as Australia and Canada. The book covers the underlying ideas behind insurance transactions, together with the legal and financial principles that permit these concepts to function in the real world. Key issues considered include: the role of the constituent parts of the insurance market the operation of both life and general insurers with special reference to the operation of the Lloyd's market the nature and function of reinsurers, brokers and loss adjusters the influence of government, both in terms of market regulation and consumer protection alternatives to the established private sector insurers, such as government schemes, Islamic insurance and alternative risk financing.

Life Assurance Contracts Andrew McGee 2016-04-29 Life assurance continues to be a topic of great practical significance, given the popularity of endowment mortgages and pensions, which contain an element of insurance, as well as the need for families to protect against the loss of their breadwinners. Since the first edition of this book in 1995 much has changed, with a fundamentally new regulatory structure under the Financial Services and Markets Act 2000, changes in divorce and bankruptcy law, as well as continued developments in areas such as insurable interest and utmost good faith. All these developments are covered in this new edition, which at the same time retains the extensive coverage of the well-established principles of this area of law. Areas dealt with include insurable interest, disclosure, cancellation, intermediaries, marketing, assignment, surrender and pension policies. This new edition has been comprehensively revised and updated to take account of changes since the last edition was published.

Consumer Financial Dispute Resolution in a Comparative Context Shahla F. Ali 2013-03-14 Nearly all major global financial centres have developed systems of consumer financial dispute resolution. Such systems aim to assist parties to resolve a growing number of monetary disputes with financial institutions. How governments and self-regulatory organizations design and administer financial dispute resolution mechanisms in the context of increasingly turbulent financial markets is a new area for research and practice. Consumer Financial Dispute Resolution in a Comparative Context presents comparative research about the development and design of these mechanisms in East Asia, North America and Europe. Using a comparative methodology and drawing on empirical findings from a multi-jurisdictional survey, Shahla Ali examines the emergence of global principles that influence the design of financial dispute resolution models, considers the structural variations between the ombuds and arbitration systems and offers practical proposals for reform.

Review of Civil Litigation Costs Great Britain. Ministry of Justice 2010 In January 2009, the then Master of the Rolls, Sir Anthony Clarke, appointed Lord Justice Jackson to lead a fundamental review of the rules and principles governing the costs of civil litigation. This report intends to establish how the costs rules operate and how they impact on the behavior of both parties and lawyers.
