A Push to George in Bush Viswanatha Sankara Rama Subramaniam 2017-10-11 An imperative need has arisen to provide a Constructive push to the Honourable President George Bush (2001 to 2009). This to consider that Tangible wealth and Intangible feelings together go to format the fraternity of Freedom. American population, Corporate units, Expatriates and all nations with their currency related to US \$, are not happy in the current Dollar dipping situation. Is the development trend of USA is going down ? "No", as guided by the trend of Gross Domestic Product (GDP), and "Yes" as guided by the Net of Exports and imports. The net is an import, because of low value for US exports and high value for US imports, due to the gain of Euro over the Dollar. On the other hand, the currencies of poor nations (developing / under-developed), are galloping upward in Dollar parity, just only because they are linked to Euro, without any domestic productive contribution or economic growth activities. The answer to this situation is reflected in the US Socio-economic scenario. This is in the USA's approach and uncontrollable administrative attachment and an appetite to control other nations in the world, through an unilateral Army power. Also motivating UN (A Peace keeper through Force and Army power) to offer sanctions and threats to developing and Undeveloped nations, biased towards USA; Prompting the poor nations to tie up their domestic products towards USA; and Pumping wealth from developed nations into poor nations, leading their current and future generations into a long-term debt / slave situation; are a few acts which has lead to the current Dollar dip. Preparing a Notional Balance sheet of USA, with imaginary figures, compels a need to post a Loss to the Assets in the Debit side, to balance the Liabilities in the Credit side. This off-setting entry has to come from a miscellaneous loss expense entry, from the Profit making US Income Statement. The source for this loss is from the Army to fight, and infrastructure to maintain an outside nation, under US care. YES ...USA as a Prime Developed Nation alone can perform the role of "Annihilating tyranny, terror and threat to the world, as well as steadily lead the poor nations toward a free and democratic society", as per the announcements of President George Bush. Bush is correct. But only the current methodology and approach require a revised outlook. The author believes that the inferences derived in this regard is applicable to all the subsequent Presidents of USA, even after the Bush Era.
