Beautiful Broken Promises Kimberly Lauren 2015-04-07 Lane Parker has suffered a terrible loss: a loss he can't get over, not even years later. Burdened by secrets he won't tell his closest friends and focused on only one goal, he finally gets the phone call he's been waiting for. Luck gives him a precious second chance to get back what was taken from him—and he'll use all his strength to make sure that the tragedy never happens again. Raegan Hayes is a spirited fighter and survivor—and she's furious at Lane, her former employer, after their paths cross at a police station and he accuses her of betrayal. Now, they both must move forward to get past the tragic incident that tore them apart long ago. But the more time Lane spends with the beautiful Raegan, the more he becomes drawn to her...and the more his passion overpowers his hostility. Can a new beginning transform their relationship from suspicion-filled to steamy?

Magical Capitalism Brian Moeran 2018-07-16 This volume of essays examines the ways in which magical practices are found in different aspects of contemporary capitalist societies. From contract law to science, by way of finance, business, marketing, advertising, cultural production, and the political economy in general, each chapter argues that the kind of magic studied by anthropologists in less developed societies – shamanism, sorcery, enchantment, the occult – is not only alive and well, but flourishing in the midst of so-called 'modernity'. Modern day magicians range from fashion designers and architects to Donald Trump and George Soros. Magical rites take place in the form of political summits, the transformation of products into brands through advertising campaigns, and the biannual fashion collections shown in New York, London, Milan and Paris. Magical language, in the form of magical spells, is used by everyone, from media to marketers and all others devoted to the art of 'spin'. While magic may appear to be opposed to systems of rational economic thought, Moeran and Malefyt highlight the ways it may in fact be an accomplice to it.

The Age of Turbulence Alan Greenspan 2008-09-10 The most remarkable thing that happened to the world economy after 9/11 was ... nothing. What would have once meant a crippling shock to the system was absorbed astonishingly quickly, partly due to the efforts of the then Chairman of the Federal Reserve Board, Alan Greenspan. The post 9/11 global economy is a new and turbulent system � vastly more flexible, resilient, open, self-directing, and fast-changing than it was even twenty years ago. The Age of Turbulence is an incomparable reckoning with the nature of this new world � how we got here, what we're living through, and what lies over the horizon, for good or ill, channelled through Greenspan's own experiences working in the command room of the global economy for longer and with greater effect than any other single living figure.

Singing in Czech Timothy Cheek 2014-12-11 Timothy Cheek's revised edition of Singing in Czech: A Guide to Czech Lyric Diction and Vocal Repertoire, with its accompanying audio accessible online, builds on the original pioneering work of 2001 that set "a new and very welcome high standard for teaching lyric diction," according to Notes: The Journal of the Music Library Association. It offers users updated information, important clarifications, and expanded repertoire in a more accessible, easier to use format. Singing in Czech is divided into two parts. Using IPA, the first part takes the reader systematically through each sound of the Czech language, enhanced by recordings of native Czech opera singers. Chapters cover the Czech vowels, consonants, rules of assimilation, approaches to singing double consonants, stress and length, Moravian dialect, and an introduction to singing in Slovak. Fine points of formal pronunciation have been clarified in this revised edition. In the second part, Cheek offers a thorough overview of Czech art song, expanded from the first edition. Texts to major song literature and opera excerpts by Smetana, Dvořák, Janáček, Martinů, and Haas, with timings, editions, word-for-word translations, idiomatic translations, and IPA transcriptions follow. In this revision, Cheek has included additional cycles by Dvořák and Martinů, and two new chapters on Czech female composers Vítězslava Kaprálová and Sylvie Bodorová. This revised edition of Singing in Czech is useful for all those who are interested and engaged in the performance of the rich Czech vocal repertoire.

The 9th Symbol LaZealtrice Hall-Powell 2011-11-24 Rose is a princess, a Cinder, and half-human. She is the last one born of her kind, and on her twenty-first birthday, she must enter the woods and travel to find her Prince, as her sisters did before her. ". . . And we will all dance at the Grand Ball," her sisters would always say. But the Human servants are keeping a secret that could prevent the Cinders from reaching their Happily Ever After....Hidden in Rose's dreams and vision are the answers of the past between Cinders and Humans, and she is quickly running out of time trying to solve their hidden messages. She knows the answer lies in her first clue--identifying an animal she has never seen before--that persistent vision of a furry white animal, holding a gold metal object and exclaiming, "Oh dear! Oh dear! I shall be too late!"

Apache Cordova 4 Programming John M. Wargo 2015 Using Apache Cordova 4, you can leverage native technologies and web standards to quickly build cross-platform apps for most mobile devices. You can deliver a high-end user experience where it matters, while radically simplifying code maintenance and reuse. Apache Cordova 4 Programming is the most concise, accessible introduction to this remarkable technology. In this essential guide, expert mobile developer John Wargo quickly gets you up to speed with all the essentials, from installation, configuration, and tools, to building plugins and using Cordova's powerful APIs. Wargo helps you make the most of Cordova 4's major enhancements, while offering practical guidance for all versions, including Adobe PhoneGap. Full chapters are dedicated to five major mobile platforms: Android, iOS, Windows Phone, Firefox OS, and Ubuntu. Using rich, relevant examples, Wargo guides you through both the anatomy of a Cordova app and its entire lifecycle, including cross-platform testing and debugging. Throughout, he illuminates Cordova development best practices,

streamlining your development process and helping you write high-quality apps right from the start. Topics include Installing and configuring Cordova's development environment Working with the Cordova command line interfaces Creating Cordova plugins, using Plugman and the PhoneGap CLI Cordova's support for Firefox OS and Ubuntu devices Automation (Grunt and Gulp) and Cordova CLI hooks Microsoft's hybrid toolkit for Visual Studio Third-party tools, such as AppGyver, GapDebug, THyM, and more Beautifying Cordova apps with third-party HTML frameworks, such as Bootstrap, OpenUI5, Ionic, and Onsen UI Running, testing, and debugging Cordova apps on each major mobile platform Access the full code examples at cordova4programming.com, where you'll also find updates reflecting Cordova's continuing evolution. This book is an ideal companion to Wargo's authoritative collection of Apache Cordova code recipes for each Cordova API, Apache Cordova API Cookbook (Addison-Wesley, 2015).

Ontela PicDeck Mohanbir Sawhney 2017 Ontela, a technology start-up company, has introduced an innovative service called PicDeck that improves the mobile imaging experience for wireless subscribers. Ontela sells PicDeck to wireless carriers, who in turn private-label the service to their subscribers. Ontela must decide which customer segments it should target for the service and how to create a positioning strategy and a marketing communication plan to promote it. It must also consider the value proposition of the PicDeck service for wireless carriers (its direct customers), who need to be convinced that the service will lead to higher monthly average revenue per user (ARPU) and/or increased subscriber loyalty. Part A of the case provides qualitative information on customer personae that represent different customer segments. Students are asked to develop a targeting and positioning strategy based on this qualitative information. Part B provides quantitative data on customer preferences that can be used to identify response-based customer segments, as well as demographic and media habits information that can be used to profile the segments. Students are asked to revise their recommendations based on the additional quantitative data. The case reinforces the principles of data-driven customer segmentation, discusses the appropriate criteria for selecting segments, and provides a deeper understanding of the benefits and drawbacks of different approaches to identifying and evaluating segments. The case illustrates how the results of data-driven segmentation may run counter to approaches that rely on "gut feel" or qualitative information alone.

Imaginary Menagerie Ailbhe Darcy 2011 Ailbhe Darcy's debut collection is a set of urgent dispatches from her point of origin, Dublin, and from her skirmishes further afield: London, Paris, Africa, Eastern Europe or the States. Driven less by metaphor than by wild conceits, semantic leaps, and startling juxtapositions, these are poems that itch and pluck at the pelt of what we think we know. Darcy is an exuberant and inventive new presence in the poetry world.

The Hood Health Handbook Supreme Understanding 2010 The Hood Health Handbook is a comprehensive source of information and insight on nearly every health issue faced by the urban community. In plain language, the authors draw on well-known examples from urban culture to illustrate what works...and what doesn't. Focusing on natural and affordable approaches, the authors provide recommendations that anyone can put to practice. Volume One focuses on the status of health in the urban community, the "wrong foods" that make us unhealthy, the history of diet and healthcare among Black and brown people (focusing on how things changed for the worst), the diseases and illnesses that plague our communities, and holistic (natural) methods to heal and treat ourselves into wellness.

Computational Peptide Science Thomas Simonson 2022-03-18 This volume details current and new computational methodologies to study peptides. Chapters guide readers through antimicrobial peptides, foldability, amyloid sheet formation, membrane-active peptides, organized peptide assemblies, protein-peptide interfaces, prediction of peptide-MHC complexes, advanced free energy simulations for peptide binding, and methods for high throughput peptide or miniprotein design. Written in the format of the highly successful Methods in Molecular Biology series, each chapter includes an introduction to the topic, lists necessary materials, software, and reagents, includes tips on troubleshooting and known pitfalls, and step-by-step, readily reproducible protocols. Authoritative and cutting-edge, Computational Peptides Science: Methods and Protocols aims to provide concepts, methods, and guidelines to help both novices and experienced workers benefit from today's new opportunities and challenges.

Multinational Finance Kirt C. Butler 2016-04-13 Deep coverage and rigorous examination of international corporate finance Multinational Finance offers an advanced exploration of international corporate finance concepts and operations. Despite its status as one of the most rigorous texts on the topic, this book remains accessible and readable without sacrificing depth of coverage. Sidebars, key terms, essays, conceptual questions, and problems with solutions help aid in the learning process, while suggested readings and PowerPoint handouts reinforce the material and offer avenues for further exploration. This new sixth edition includes Excel templates that allow students to use real-world tools in a learning environment, and the modular structure facilitates course customization to individual objectives, interests, and preparatory level. The emphasis is on the basics of financial management, but coverage includes unique chapters on treasury management, asset pricing, hedging, options, and portfolio management in addition to traditional finance topics. International finance is a diverse field with myriad specialties and a vast array of possible interests. This book allows students to view the field through the lens of a financial manager with investment or financial options in more than one country to give them a practical feel for real-world application. Understand the nature and operations of international corporate finance Evaluate opportunities, costs, and risks of multinational operations See beyond the numbers and terminology to the general principles at work Learn the markets, currencies, taxation, capital structure, governance, and more Comprehensive, adaptable, and rigorously focused, this book gives students a solid foundation in international corporate finance, as well as a sound understanding of the tools and mechanics of the field. Designed for MBA and advanced undergraduate courses, Multinational Finance provides the deep coverage so essential to a solid education in finance.

Radar Instruction Manual United States. Maritime Administration 2005 Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies.Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration?s three region schools.It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook.This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation.Robert J.
