Nurturing Praxis 2008-01-01 Nurturing Praxis

offers a distinctive view of collaborative and action research in educational settings in four Nordic countries; Sweden, Norway, Finland and Iceland. Educational action research in Nordic countries is interpreted as being informed by the traditions of Bildung and (folk) enlightenment and thereby emphasizing the importance of collaboration, discussion and dialogue in knowledge creation.

Sophists Mauro Bonazzi 2021-01-28 From Socrates and Plato onwards, the Sophists were often targeted by the authoritative philosophical tradition as being mere charlatans and poor teachers. This book, translated and significantly updated from its most recent Italian version (2nd edition, 2013), challenges these criticisms by offering an overall interpretation of their thought,

and by assessing the specific contributions of thinkers like Protagoras, Gorgias and Antiphon. A new vision of the Sophists emerges: they are protagonists and agents of fundamental change in the history of ancient philosophy, who questioned the grounds of morality and politics, as well as the nature of knowledge and language. By shifting the focus from the cosmos to man, the Sophists inaugurate an alternative form of philosophy, whose importance is only now becoming clear.

The Discipline of Teams Jon R. Katzenbach
2009-01-08 In The Discipline of Teams, Jon Katzenbach and Douglas Smith explore the often counter-intuitive features that make up high-performing teams—such as selecting team members for skill, not compatibility—and explain how managers can set specific goals to foster team development. The result is improved productivity and teams that can be counted on to deliver more than just the sum of their parts. Since 1922, Harvard Business Review has been a leading source of breakthrough ideas in management practice. The Harvard Business Review Classics series now offers you the opportunity to make these seminal pieces a part of your permanent management library. Each

highly readable volume contains a groundbreaking idea that continues to shape best practices and inspire countless managers around the world.

Numbricks Puzzles - 200 Normal Puzzles 9x9

Liam Parker 2019-11-13 Numbricks is a type of logic puzzle. Numbricks puzzles are similar to Hidato. The most important difference is that it is only possible to move 1 node left, right, up, or down. It is played on a rectangular grid of squares. Some of the cells have numbers in them. The object is to fill in the missing numbers, in sequential order, going horizontally and vertically only. Diagonal paths are not allowed.
