Photoshop Edward Bailey 2015-09-23 Did you ever want to learn how to make your photos stand out? ** Get this book by Amazon Best Selling Author Edward Bailey ** Do you think Photoshop is too complicated for you? If you answered "YES" to both questions, then this book is perfect for you. You can make your photos stand out and you can do it easily. This book will help you realize that the photo-editing processes in Photoshop aren't complicated and you can edit your images like a pro. Whenever we look through magazines or browse some websites, we see photos of high quality. These photos didn't always look perfect. They started as ordinary photos taken by a person who wanted to point something out or to capture some beauty or simply to take a picture of someone else or even themselves. Yes, these photographs were edited. The only reason they look perfect to you is because the photographer or graphic designer wanted to make the focus of the photo stand out or to express his or her creativity. If you ever wondered how amazing it would be to actually make your own images look like that, then this book is the ideal solution for you. The book teaches you how to edit images using the same techniques as professional editors and photographers. People usually get discouraged whenever they hear or read the word "professional." To them, the word immediately indicates a complicated and time-consuming process that they would never be able to understand or even perform. This is, exactly what makes this book different from all other books; the simplicity. Here is what this book will teach you: * Various Photoshop art effects - in this part of the book, you will learn how to turn your photo into a painting in 15 easy steps. Moreover, you can turn the photo you capture into a pencil drawing and it can be done in 10 steps. It really is that easy. If you ever wanted to make a comic book with you as the main character (or your friends), this book contains the step by step guide. In 17 simple steps, you can become a comic book character * Editing and repairing old photos - you probably have tons of old photos that are slightly damaged. The second part of this book teaches you how to repair damaged photos in 4 steps; (YES! It is that easy), and you can also ADD color to your old black and white photos. You can use these techniques and make a perfect birthday/holiday present for your parents or grandparents * Photoshop hacks for graphic designers - in this part, all graphic design enthusiasts can learn how to add a flaming effect to various objects or to add an exploding text effect Benefits of buying this book: * Simple techniques * Step by step instructions * Versatile content * Practical use * Brings out your own creativity Read this book for FREE on Kindle Unlimited - Download Now!" All photo-editing methods in this book are simple and able to be performed by absolutely everyone. Moreover, throughout the book, you will learn how to express your own creativity and you can adjust the values of all settings according to your preferences. Follow the instructions provided in this book and start editing your images like a pro. All that you need to be a pro is your own creativity (which you already have) and Photoshop. Get started. Adobe Photoshop 7 Web Design with GoLive 6 Michael Baumgardt 2003 Just because a program is one-size-fits-all doesn't mean that a book about it has to be. Take the case of Adobe Photoshop 7.0 Web Design: Even though the popular digital imaging program is geared toward designers of all types (graphics, print, Web), this book that covers it isn't. Instead, it's written just for you--the Web site designer who wants to get answers to Web-related Photoshop questions without wading through a lot of explanations that simply don't apply. Through clear, direct text and a gorgeous four-color layout, this volume both instructs and inspires--Qin the process delivering all of the information you need to produce better-organized, faster-loading Web sites. As you follow along with best-selling author Michael Baumgardt, you'll learn how to create and optimize Web graphics, produce GIF animations, manage Web colors, and more. You'll also learn about all that's new in Photoshop 7: an enhanced Rollover palette to manage Web page rollovers, animations, and image maps more easily; Web output enhancements to easily apply transparency to Web page elements; and the new "selected" rollover state for creating more sophisticated Web site navigation bars without hand-coding--and these are just the tip of the iceberg! Whatever your level of experience, if you're ready to take on Web design with Photoshop 7, this is the book for

Project: Photoshop Nat Gertler 2002 Start using Adobe Photoshop today to generate original drawings, touch up photographs, create web graphics, colorize black-and-white art, design logos, produce animations, and more! Project: Photoshop features 20 high-interest projects based on Photoshop 6 to lead readers, step-by-step, to a complete understanding of the whys and hows of using one of today's most popular digital image manipulation tools. Ideal for readers who want to learn by doing, every project in this fast-paced and heavily illustrated how-to book is broken down into a set of useful and specific procedures. For additional simplification, each procedure is further divided into a series of small, straightforward steps that are accompanied by extraordinarily clear, concise, and easy-to-follow instructions. Tips appear at strategic points to reinforce key concepts and help readers avoid pitfalls when steps are neither obvious nor intuitive. "Deeper Understanding" features are also built into the book, allowing readers to explore in greater detail some of the most frequently used and innovative functions of Photoshop 6 and ImageReady 3, which is included with Photoshop. All projects are presented in a logical sequence that affords opportunities to expand upon skills learned in previous projects. However, each and every project produces its own tangible and rewarding result to propel beginning through intermediate users to new skills-making this book a "must" on every user's desktop.

Adobe Photoshop 7.0 for Photographers Martin Evening 2013-05-02 Martin Evening's award-winning Adobe Photoshop for Photographers titles have become must-have reference sources - the only Photoshop books written to deal directly with the needs of photographers. This book contains a wealth of invaluable practical advice, with even more hints and tips to help you achieve professional-looking results. Adobe Photoshop 7.0 for Photographers begins with an introduction to working with digital images, providing essential, up-to-date information on everything from scanning devices to color management and output issues. Practical workshops show you how to master the essential techniques, with full coverage of all that's new in Photoshop 7.0, including: improved retouching techniques with the Healing Brush and Patch tool; removing color casts with the new Auto Color image adjustment feature; navigating, sorting and managing your photographs with the enhanced File Browser option; and how to save as many custom palette configurations as you like via the Workspace settings. Each technique is described in step-by-step detail, showing exactly which command to use, whether you're working on a Mac or PC. Detailed coverage is also given for Mac OSX users which Photoshop supports for the first time in version 7.0, as well as information on Windows XP for PC users. The accompanying free CD-ROM contains invaluable movie tutorials and a selection of images to experiment with, surely the quickest way to learn. If you have an initial grasp of the Photoshop basics and are looking for ways to improve the quality of your work, want to find new ideas and tutorials for the best techniques direct from a pro whilst making sure you are fully up-to-date on Photoshop 7.0, then this is the book for you!

Photoshop 7 and Illustrator 10 Vicki Loader 2013-11-27 This book will show you how to combine the power of Photoshop 7 and Illustrator 10 to take your creative and production skills to new heights. Find out the best way to use them in tandem, with a seamless workflow, for stunning results in your print and web output. The book looks at how the programs work together to help you create great graphics with practical demonstrations of projects you are likely to encounter in your work. You'll learn advanced techniques for working with layer blending modes, the latest tools and new file formats such as SVG, along with color management, animation, printing, web-publishing, and integration with other programs. This book is not for Photoshop and Illustator novices—it's called 'Advanced' because it aims to take your basic skills to the next level and teach you how to create the finest graphics you find in the world around you. The book looks at how the programs can serve each other and you: Adobe has worked hard to make these two applications function more efficiently together—this book will help you to reap the rewards of their labor. The aim of this book is to show how Photoshop 7 and illustrator 10 can work together as part of a team; this means looking at their strengths and weaknesses and how they compliment one another. Part 1 is shorter than Part 2 and contains an analysis of each application; how each one performs certain tasks and where the crossover lies. Many functions can be acheived in both and there is a certain amount of personal choice involved—we evaluate the benefits of each one and which may be suited to certain tasks: we want you to find the right balance to maintain a long and happy marriage! In Part 2, we look at the practical applications of each one through a series of projects that detail step-by-step how they may be used in conjunction with each other. The tutorials are backed up with theory and additional information to help you make an informed choice when deciding the workflow that fits you best. We hope to help you make the best use of your skills and talents, so you can go further and achieve more.

Photoshop 7 Down and Dirty Tricks Scott Kelby 2002-04-23 Updated for the latest version of Photoshop, Photoshop 7 Down & Dirty Tricks is packed cover to cover with step-by-step tutorials on the coolest Photoshop 7 effects. The book is not another rehash of masking, pixels, and file formats or resolution--it's nothing but the cool stuff that will make your client's (or boss's) jaw drop.
