Configuring SAP Financial Accounting - Vol. II Narayanan Veeriah 2020-07-13 This book on 'Configuring SAP Financial Accounting' in SAP S/4HANA Finance (1909), has been published in two volumes: Volume I and Volume II. The Vol. II (this book) covers: Configuring SAP Financial Accounting - Vol. I Case Study (Project Dolphin & Project Starfish) Accounts Receivable and Accounts Payable Contract Accounts Receivable and Payable Bank Accounting Asset Accounting In Vol. I of the title we have covered: SAP HANA SAP S/4HANA SAP S/4HANA Finance Case Study (Project Dolphin & Project Oyster) Enterprise Structure FI Global Settings I (Fields, Ledgers, Fiscal Year, Posting Period, Parallel Accounting, Integration of SAP CO with SAP FI, and Company Code Global Parameters) FI Global Settings II (Documents, Inflation Accounting and Correspondence) FI Global Settings III (Taxes including Extended Withholding Tax) General Ledger Accounting To give you an idea of what has been covered in 'Configuring SAP Financial Accounting - Vol. I', we have captured the details, in this book, in a Chapter-wise summary of that coverage with configuration highlights that has been discussed in each of those Chapters, from 1 to 9. The book covers Accounts Receivable (FI-A/R) and Accounts Payable (FI-A/P), in detail. It covers customer and vendor accounts, business transactions associated with both FI-A/R and FI-A/P and the information system. In business transactions, you will see topics like incoming invoices, release for payment, payments (outgoing & incoming, manual and automatic), dunning, open item clearing, down payment processing, adjustment posting, interest calculation and closing operations. In Contracts Accounts Receivable and Payable (SAP FICA), with a separate case study (Project Starfish), we discuss the functionality and the configuration required for setting up of SAP FICA for a business. In Bank Accounting (FI-BL), you will learn about bank master data (bank directory, house bank, business partner's bank, bank distribution etc.), bank chains, payment transactions including manual & electronic bank statement, lockbox processing, cash journal and online payments. The book covers Asset Accounting (FI-AA) in great detail. It covers the organizational structure, structuring fixed assets in FI-AA (including special forms of assets, asset classes etc.), integration of FI-AA with other SAP components including SAP FI-G/L, general & special valuation, depreciation,

master data, transactions (like acquisitions, retirements, transfers, capitalization of assets under construction etc.), FI-AA information system, asset data transfer, preparations for going live and overview for experts. As with my other books on SAP, this book also follows a case-study approach to make your learning easy. Efforts have been taken, throughout the book, to guide you step-by-step in understanding how to configure your SAP system, to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots (from an SAP system) and illustrations to help you 'see' what is being discussed in that activity / step. You will see a lot of additional information, provided across the Chapters and the Sections, to help you understand a topic or a configuration setting or a concept better. The entire content of the book, vide various Chapters, has been presented as in SAP IMG (Implementation Guide), for easy comprehension. You will come across with appropriate menu paths and Transactions, to help you to navigate the various activities. In all, you can use this book as a desktop-reference for configuring SAP FI. As the Chapters have been progressively elaborated, you will certainly find this as informative and easy to comprehend.

The Future of the Global Financial System: Downfall or Harmony

Elena G. Popkova 2018-11-03 This book gathers the best papers presented at the conference "The Future of the Global Financial System: Downfall or Harmony", which took place in Limassol, Cyprus on April 13-14, 2018. Organized by the Institute of

Scientific Communications (Volgograd, Russia), the conference chiefly focused on reassessing the role and meaning of the global

financial system in the modern global economy in light of the crisis that began in 2008 and can still be observed in many countries, and on developing conceptual and applied recommendations on

spurring the development of the global financial system. All works underwent peer-review and conform to strict criteria, including a

high level of originality (more than 90%), elements of scientific novelty, contribution to the development of economic science, and

broad possibilities for practical application. The target audience of this scientific work includes postgraduates, lecturers at higher

educational establishments, and researchers studying the modern global financial system. Based on the authors' conclusions and

results, readers will be equipped to pursue their own scientific research. The topics addressed include (but are not limited to) the

following issues, which are interesting for modern economic science and practice: financial globalization, the role of finances in

the global economy, perspectives of transition in the financial system from part of the infrastructure to a new vector of

development in the global economy in the 21st century, reasons for the crisis of the modern financial system and ways of

overcoming it, problems and perspectives regarding the harmonization of the global financial system, and scenarios of

development for the global financial system. The content is divided into the following parts: development of financial systems

at the micro-, meso- and macro-levels, financial infrastructure of the modern economy, legal issues of development of the modern

financial system, and management of the global financial system.

Sap Fico Covers Sap Ecc 6.0 Black Book Bhushan Jairamdas Mamtani This book, SAP FICO Black Book, brings to you a simple to the point non-technical jargon free discussion on SAP FICO along with comprehensive real life examples based on authors real life implementations. One of the first FICO books which cover business cycles rather than plain technical configuration. Targeting intermediate and advanced-level readers, this book discusses Implementation Tools; Enterprise Structure; New GL Configuration; Online Document Splitting; AR; AP; AA; Bank accounting; Integration of FI with Other Modules; Business Processes; Controlling; Cost Center Accounting; Product Costing; Material Ledger Configuration and Profit Center Accounting. The author has spent the last 10 years of his career acquiring this knowledge through the trial and error method. It covers the end user as well as technical configuration perspective. It can serve as a starting point for the people who want to comprehend how the financial and managerial accounting functions in an ERP. Most of the FICO text deals with technical configuration and throws little light on its functional implementation. This book is author's humble attempt to bridge the gap by providing real life scenarios along with technical details.

Processed Apple Products Donald L. Downing 2012-12-06 The objective of this book is to organize and document the technical, analytical, and practical aspects of present-day apple processing. No collected works have been published on processed apple products for more than thirty years. During that time many changes have taken place in the apple-processing industry. There

are fewer but larger plants processing apples from larger geographical areas because of advances in transportation and storage of fruit. In addition sophisticated technical advances in the processing and packaging of apple products have also occurred. This volume is designed to serve primarily as a reference book for those interested and involved in the processed apple industry. An attempt has been made to provide a central source of historical, currently practical, and theoretical information on apple processing. References have been cited to give credibility and assist those who may wish to read further on a particular subject. If this book successfully summarizes present knowledge for readers and assists in the continued improvement of commercial fruit processing, I will be pleased. I would like to thank the many people in the apple industry who have requested information and encouraged the writing of this book. The late Dr. Robert M. Smock, Professor Emeritus, Cornell University, and coauthor of *Apples and Apple Products*, originally published in 1950, gave his blessings and encouragement to this undertaking.

SAP ERP Financial Accounting and Controlling Andrew Okungbowa 2015-06-08 SAP ERP modules are notoriously hard to configure and use effectively without a lot of practice and experience. But as *SAP ERP Financial Accounting and Controlling: Configuration and Use Management* shows, it doesn't have to be so difficult. The book takes a systematic approach that leads SAP Financial Accounting and Controlling (FICO) users step by step through configuring and using all the program's facets. This approach makes configuration complexities manageable. The book's author—SAP expert, trainer, and accountant Andrew Okungbowa—ensures that both you and your end users are up and running quickly and confidently with FICO. He also provides sound and tested procedures that ensure your implementation works without error. *SAP ERP Financial Accounting and Controlling:*

Configuration and Use Management is in fact the most comprehensive and easy-to-follow SAP FICO configuration book in the market. It incorporates a hands-on approach, with hundreds of screen shots and practical examples, that allows a person without prior configuration training to make SAP FICO ready for use in the enterprise. You'll find that you don't need to be a rocket scientist to grasp the concepts explained and apply them to your work—even when the finances are complicated, such as with the ins and outs of taxes, currency conversions, or special general ledger entries such as down payments or bills of exchange. Providing an in-depth coverage of both configuration and end user procedures, the book covers most aspects of the SAP FICO certification syllabus—SAP's view of the module's key tasks and procedures—including: Configuring and using the general ledger and accounts payable and receivable screens Configuring and completing closing procedures, asset accounting, and financial reporting Configuring global settings and enterprise variables Accounting for both profit and cost centers Creating a house bank Integrating FICO with other SAP modules Taking a jargon-free tone and providing an abundance of examples, Andrew Okungbowa provides a clear understanding of configuration techniques and the breadth of functionalities encompassed by SAP FICO. And as an accountant, Okungbowa understands the needs of end users as well as of those answering to the CIO.
