**Walker Evans, Cuba** Walker Evans 2001 "As novelist and poet Andrei Codrescu points out in the essay that accompanies this selection of photographs from the Getty Museum's collection, Evans's photographs are the work of an artist whose temperament was distinctly at odds with Beals's impassioned rhetoric. Evans's photographs of Cuba were made by a young, still maturing artist who - as Codrescu argues - was just beginning to combine his early, formalist aesthetic with the social concerns that would figure prominently in his later work."--Jacket.

**Scorch** A. D. Nauman 2001-11-20 In the future world of Scorch, America is run by a "corporacracy." Three conglomerates have taken control not by force but by manipulating common beliefs and values through the media, and particularly by playing on Americans' fears of Big Brother. Consumerism and privatization have run amok in this landscape of flashing screens and subtle brainwashing, a world where even city streets and public schools are run by big business. This is a darkly comic first novel of a dystopian future, with echoes of 1984 and Brave New World.

**Censored 2020** Andy Lee Roth 2019-10-08 In the midst of Trump's attacks on the media, comes this look at the rigorous, independent reporting of the year's most underreported news stories. While the country's president displays a brazen disregard for the First Amendment and routinely demonizes the press as "the enemy of the people," Censored 2020 looks beyond Donald Trump's dizzying contempt for the truth to clarify the corporate media's complicity in misinforming the American public--while also providing a clear vision of a better future, based on rigorous, trustworthy independent reporting that presents a fuller picture of truth. With a discerning eye, Censored 2020 focuses the public's attention on the most important but underreported news stories of 2018-2019. These stories expose the corporate news media's systemic blind spots while highlighting the crucial role played by independent journalists in providing the kind of news necessary for informed, engaged citizens. The book also examines this year's lowlights in "junk food news" and "news abuse"--further revealing how corporate news often functions as propaganda--as well as highlights of exemplary organizations that champion "Media Democracy in Action." Additional chapters address the importance of constructive journalism, the untold story of Kashmir, news coverage of LGBTQ issues in the Trump era, "fake news" as a Trojan horse for censorship, and online memes as a form of political communication.

**Extreme Economies** Richard Davies 2019-09-05 \*Winner of the Enlightened Economist Prize 2019\* \*Winner of Debut Writer of the Year at the Edward Stanford Travel Writing Awards 2020\* \*Longlisted for the Financial Times & McKinsey Business Book of the Year Award 2019\* 'Extreme Economies is a revelation - and a must-read.' Andy Haldane, Chief Economist at the Bank of England To understand how humans react and adapt to economic change we need to study people who live in harsh environments. From death-row prisoners trading in institutions where money is banned to flourishing entrepreneurs in the world's largest refugee camp, from the unrealised potential of cities like Kinshasa to the hyper-modern economy of Estonia, every life in this book has been hit by a seismic shock, violently broken or changed in some way. In his quest for a purer view of how economies succeed and fail, Richard Davies takes the reader off the beaten path to places where part of the economy has been repressed, removed, destroyed or turbocharged. He tells the personal stories of humans living in these extreme situations, and of the financial infrastructure they create. Far from the familiar stock reports, housing crises, or banking scandals of the financial pages, Extreme Economies reveals the importance of human and social capital, and in so doing tells small stories that shed light on today's biggest economic questions. 'A highly original approach to understanding what really makes economies tick.' Mervyn King, former Governor of the Bank of England

**Stable Peace** Kenneth E. Boulding 2014-12-15 The human race has often put a high value on struggle, strife, turmoil, and excitement. Peace has been regarded as a utopian, unattainable, perhaps dull ideal or as some random element over which we have no control. However, the desperate necessities of the nuclear age have forced us to take peace seriously as an object of both personal and national policy. Stable Peace attempts to answer the question, If we had a policy for peace, what would it look like? A policy for peace aims to speed up the historically slow, painful, but persistent transition from a state of continual war and turmoil to one of continual peace. In a stable peace, the war-peace system is tipped firmly toward peace and away from the cycle of folly, illusion, and ill will that leads to war. Boulding proposes a number of modest, easily attainable, eminently reasonable policies directed toward this goal. His recommendations include the removal of national boundaries from political agendas, the encouragement of reciprocal acts of good will between potential enemies, the exploration of the theory and practice of nonviolence, the development of governmental and nongovernmental organizations to promote peace, and the development of research in the whole area of peace and conflict management. Written in straightforward, lucid prose, Stable Peace will be of importance to politicians, policy makers, economists, diplomats, all concerned citizens, and all those interested in international relations and the resolution of conflict.
