What Works in Girls' Education Gene B Sperling

2015-09-29 Hard-headed evidence on why the returns from investing in girls are so high that no nation or family can afford not to educate their girls. Gene Sperling, author of the seminal 2004 report published by the Council on Foreign Relations, and Rebecca Winthrop, director of the Center for Universal Education, have written this definitive book on the importance of girls' education. As Malala Yousafzai expresses in her foreword, the idea that any child could be denied an education due to poverty, custom, the law, or terrorist threats is just wrong and unimaginable. More than 1,000 studies have provided evidence that high-quality girls' education around the world leads to wide-ranging returns: Better outcomes in economic areas of growth and incomes Reduced rates of infant and maternal mortality

Reduced rates of child marriage Reduced rates of the incidence of HIV/AIDS and malaria Increased agricultural productivity Increased resilience to natural disasters Women's empowerment What Works in Girls' Education is a compelling work for both concerned global citizens, and any academic, expert, nongovernmental organization (NGO) staff member, policymaker, or journalist seeking to dive into the evidence and policies on girls' education.

The Five Thousand Year Leap W. Cleon Skousen 1981 The Founding Fathers of the United States of America created the first free people in modern times. They wrote a new

kind of Constitution which is now the oldest in existence. They built a new kind of commonwealth designed as a model for the whole human race. They believed it was thoroughly possible to create a new kind of civilization; giving freedom, equality, and justice to all. The Founders created a new cultural climate that gave wings to the human spirit. They built a free-enterprise culture to encourage industry and prosperity. They gave humanity the needed ingredients for a gigantic 5,000-year leap in which more progress has been made in the past 200 years than all of prior recorded human history. All of this came about because of 28 basic principles the Founders discovered, upon which all free nations must be built in order to succeed. This eBook includes the original index, footnotes, table of contents and page numbering from the printed format, and also new illustrations.

The English Constitution Walter Bagehot 1867 There is a great difficulty in the way of a writer who attempts to sketch a living Constitution—a Constitution that is in actual work and power. The difficulty is that the object is in constant change. An historical writer does not feel this difficulty: he deals only with the past; he can say definitely, the Constitution worked in such and such a manner in the year at which he begins, and in a

manner in such and such respects different in the year at which he ends; he begins with a definite point of time and ends with one also. But a contemporary writer who tries to paint what is before him is puzzled and a perplexed: what he sees is changing daily. He must paint it as it stood at some one time, or else he will be putting side by side in his representations things which never were contemporaneous in reality.

The American Henry James 2021-04-14 He wandered back to the divan and seated himself on the other side, in view of the great canvas on which Paul Veronese had depicted the marriage-feast of Cana. Wearied as he was he found the picture entertaining; it had an illusion for him; it satisfied his conception, which was ambitious, of what a splendid banquet should be. In the left-hand corner of the picture is a young woman with yellow tresses confined in a golden head-dress; she is bending forward and listening, with the smile of a charming woman at a dinner-party, to her neighbor. Newman detected her in the crowd, admired her, and perceived that she too had her votive copyist—a young man with his hair standing on end. Suddenly he became conscious of the germ of the mania of the "collector;" he had taken the first step; why should he not go on? It was only twenty minutes before that he had bought the first picture of his life, and now he was already thinking of art-patronage as a fascinating pursuit. His reflections quickened his good-humor, and he was on the point of approaching the young man with another "Combien?"
